Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 18-23, 31, 35-41 and 43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ray (US 5,527,312) in view of Mathews (US 5,569,248).

Ray discloses a method of spinal fixation wherein a bone anchor portion of a fixation device is advanced through a facet of a first vertebra and the pedicle of a second vertebra (Fig. 1, col. 2, lines 26-67 and col. 3, lines 43-50).

Ray discloses all elements of the claimed invention except for a head or "proximal anchor" detachably coupled to the body of the fixation device by means of threads or "retention structures."

Mathews teaches a screw with a head or nut or proximal anchor 42 detachably coupled to the screw so that a fixation plate can be held in place between the nut and the screw (Fig. 2, col. 7, lines 28-67 and col. 8, lines 1-32).

Accordingly, it would have been obvious to one of ordinary skill in the art at the time the invention was made to have provided fixation device with a nut or head or "proximal anchor" detachably coupled the body of the fixation device, as taught by Mathews, in order to hold plate 40 in place by means of the nut.

The method steps of claim 18-20, 23 and 26 are rendered obvious by the above discussion.

Response to Arguments

Applicant's arguments with respect to claim 18 have been considered but are moot in view of the new ground of rejection.

Allowable Subject Matter

Claims 32-34 and 42 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 44-72 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
